

PATIENT CONSENT FORM

The Department of Health and Human Services has established a "Privacy Rule" to help ensure that personal healthcare information is protected for privacy. The Privacy Rule was also created in order to provide standard for certain health care providers to obtain their patients' consent for uses and disclosures of health information about the patient to carry out treatment, payment, or healthcare operations.

As our patient we want you to know that we respect the privacy of your personal dental records and will do all we can to secure and protect that privacy. We strive to always take reasonable precautions to protect your privacy. When appropriate we provide the minimum necessary information to only those we feel are in need of your health care information. This includes information about treatment, payment and/or health care operations in order to provide health care that is in your best interest.

We also want to know that we support your full access to your personal dental records. We may have indirect treatment relationships with you (such as laboratories that only interact with doctors and not patient), and may have to disclose personal information for purposes of treatment, payment, or health care operations.

You may refuse to consent to the use or disclosure of your personal health information, but this must be in writing. Under this law, if you refuse to disclose your Personal Health Information, we have the right to refuse to treat you. If you choose to give consent in this document, at some future time you may request to refuse all or part of your PHI. You may not revoke actions that have already been taken which relied on this or a previously signed consent.

If you any objections to this form, please ask to speak with our HIPPA Compliance Officer. You have the right to review our privacy notice, to request restrictions, and revoke consent in writing.

COMPLIANCE ASSURANCE NOTIFICATION FOR OUR PATIENTS

To Our Value Patients:

The misuse of Personal Health Information (PHI) has been identified as a national problem causing patients inconvenience, aggravation, and money. We want to know that all of our employees, managers and doctors continually undergo training to understand and comply with government rules and regulations regarding the Health Insurance Portability and Accountability Act (HIPAA) with particular emphasis on the "Privacy Rule". We strive to achieve the very highest standards of ethics and integrity in performing services for our patients.

It is our policy to properly determine appropriate use of PHI in accordance with the governmental rules, laws and regulations. We want to ensure that our practice never contributes in any way to the growing problem of improper disclosure of PHI. As part of this plan, we have implemented a Compliance Program that we believe will help us prevent any inappropriate use of PHI.

We also know that we are not perfect! Because of this fact, our policy is to listen to our employees and patients without any thought of penalization if they feel that an event in any way compromises our policy of integrity. More so, we welcome you input regarding any service problem, so that we may remedy the situation promptly.

Thank you for being one of our highly valued patients.
