The Alamo Communications SIP Trunking Advantage

Alamo Communications' SIP Trunks deliver optimal service quality with crystal clear voice. When compared to older expensive wireline services like analog trunks or PRIs, Alamo Communications' SIP Trunks enhance your existing phone system while lowering your monthly telecom spending. In addition, SIP Trunks are much more flexible and reliable.

Use any Phone System You Want

Alamo Communications' SIP Trunks can work with any SIP enabled PBX. They also work with traditional analog phone or key systems using a telephone adapter or IAD (Integrated Access Device). No matter what system you currently have or plan on purchasing Alamo Communications' SIP Trunks can help you save money and increase productivity.
