

Most cars and trucks made after the early 1990's have computer controlled transmissions. The right equipment with the latest technology is a *must* for an accurate diagnoses . With our in-house rebuilding, we have the full capabilities of repairing or rebuilding transmissions, transfer cases, differentials and any drive train components.

## TRANSMISSIONS

We offer complete transmission service and repair for foreign and domestic cars, trucks, vans and suv's.

We service automatic and manual transmissions on all makes and models.
