

It's time you took control...

AccentAwnings.com

Now it's easy to control the sun with the Accent Awnings® drop shade systems. Each system can be operated manually, interior switch or by hand held remote to deliver the perfect amount of shade. The Somfy® motor's design meets or exceeds UL and CSA standards. This ensures years of quiet, trouble-free operation. All Somfy® motors & electronics are backed by a 5-year limited warranty and requires no maintenance or lubrication. Be sure to ask your Sales Consultant about the wide array of options available such as fully automated sensors, timers or remote control systems.

Traditional, effective and attractive

The Accent Awnings® drop shade systems allow you to instantly extend your home's living area by turning that seldom used patio into a cool, comfortable entertaining space. Additionally, Vertical drop shades can help you significantly lower your energy bills by drastically reducing the radiant heat inside your home. With electricity costs skyrocketing, the drop shades can pay for themselves in as little as 2 to 3 years!

From dense woven Textilene solar screen, to fully opaque Sunbrella® solution dyed acrylic, we offer a wide variety of high quality outdoor grade fabrics. Durability, low maintenance and a wide selection guarantee a shade that's right for you.

Drop Shade Systems by Accent Awning Company™

PATIO-PRO

The **Patio-Pro** exterior drop shade by Accent Awnings® is ideally suited to enclose stucco balconies, wood lattice covers, windows and doors to produce instant shade and protection. Traveling along vertical stainless steel guide wires, the **Patio-Pro's** fabric rolls up or down to provide excellent & durable protection against heat, solar damage, inclement weather and even stray golf balls.

SUN-PRO JR.

The **Sun-Pro Jr.** by Accent Awnings® is the smaller version of the original Sun-Pro drop shade system. All of the **Sun-Pro Jr.'s** components, including its more compact 4" box, are designed to be the perfect window or door shade solution. This system is perfect for openings up to 10 feet wide and up to 10 feet high.

SUN-PRO

The factory-built **Sun-Pro** by Accent Awnings® is your heavy duty drop shade system solution. Built for larger areas such as patio lattice structures, stucco overhangs, entrance ways, and generally any opening where the tracks can be mounted vertically. The **Sun-Pro's** streamlined 5" box and larger roller tube allow widths up to 25 feet and heights up to 18 feet. Our heavy duty boxed drop shade leads the way with the most extensive options and versatile applications in the industry. Hardware colors are available in brown, cream or white.
