

BUILT TO LAST. BUILT FOR VALUE. BUILT TO KEEP THE INSECTS OUT.

Homeowners are only too aware of the problem: You want a cool breeze to come into your home, so you open your doors and windows...an invitation to various insects and pests that you would rather not have around you. The solution would be to put on a screen door or window screen but in many cases a screen will just cover, hide or diminish those expensive and ornate doors or windows you just bought. Why sacrifice when you can have the best of both worlds. ROLL-AWAY® disappearing screen doors allow you this kind of flexibility and with ROLL-AWAY's superior patented technology it makes our screens the only smart choice.

ROLL-AWAY®, the retractable screen door offers the ultimate screen solution. Designed to provide comfort and convenience to your home, ROLL-AWAY® screen doors are easily installed and will last the lifetime of your home or building...free from trouble...a pleasure for everyone that uses them. Functionally designed houses demand that individual parts perform their own functions without intruding upon each other. The ROLL-AWAY® screen doors do just that.

EXCLUSIVE INNOVATIVE FEATURES

A. Concealed Clean Installation Hinge
Our installation hinge hides mounting screws.

B. Low Profile Designed Housing
Spring system and impact bumper provide trouble free operation.

C. Smooth Gliding Roller System
Patented spring loaded roller keeps the Roll-Away door in adjustment for a lifetime even in out-of-square openings.

D. Secure Latch
Our latching system is more secure than magnets and incorporates a secondary lock.

ROLL-AWAY®

DISAPPEARING SCREEN DOORS

ROLL-AWAY® SCREEN DOORS ARE NOW
APPEARING AND DISAPPEARING EVERYWHERE

© Roll-Away is a registered trademark of the R.Lang Company.

ROLLS OUT WHEN YOU NEED IT. ROLLS AWAY WHEN YOU DON'T.

ROLL-AWAY® FEATURES

THE BEST SCREEN SOLUTION FOR FRENCH DOORS

Two ROLL-AWAY® screen doors are mounted on each side of the French door frame and drawn to the center. A wonderful and practical solution for insect protection that leaves the classic double door design intact.

HIGH QUALITY ALUMINUM COMPONENTS

All frame components are top of the line extrusions with baked on thermal setting polyester enamel finish.

SMOOTH GLIDING ADJUSTABLE ROLLER GUIDES

Guides lock in place...will not come out.

CHARCOAL FIBERGLASS SCREENING

Specially formulated fiberglass screen ensures full ventilation without tearing or sagging.

DOOR HANDLE AND LOCKING LATCH

Our door handle allows for smooth opening and closing. The locking latch provides safety and assurance.

LIMITED LIFETIME WARRANTY

Roll-Away® Screen Doors are warranted to the original purchaser against defects in material and workmanship (excluding the screen) for a lifetime, provided installation is in accordance with the manufacturer's recommendations.

MODERN DESIGN

Low profile architecturally designed housing and frame blends with existing doors.

AVAILABLE IN 6 POPULAR COLORS

We offer six basic colors: White, Black, Bronze, Desert Sand, Almond and Satin. Custom created colors are available as well. Just ask your local dealer or contact our factory for more information.

WHITE

BLACK

BRONZE

ALMOND

DESERT
SAND

SATIN

Roll-Away® Screen Doors are the ideal solution for French doors. Our screens retract discreetly away when not in use giving you a clean unobstructed view.

Now you can open up your house allowing fresh air in while keeping insects out.

Our screen door pulls in and out easily from its enclosure with our patented smooth gliding roller system.

ROLL-AWAY® BENEFITS

ROLLS AWAY WHEN NOT NEEDED

Roll it out of the housing when your main door is open. Roll it back into the housing, away from dirt, damage and view when your main door is closed.

LOWEST COST

Because ROLL-AWAY® screen doors are not continually exposed to the elements, they can outlast fixed non-roll up screen doors by years. That's why they're the best value under the sun and the lowest cost per year.

EASY TO INSTALL

You need only a measuring tape, drill, hack-saw, file and a screwdriver. You can install-it-yourself in less than an hour. Its easy! All hardware included.

MAINTENANCE FREE

Well designed spring construction coupled with the Roll-Away® impact bumper keep the drawbar from damaging the housing and working smoothly for years.

SPRING TENSION ALLOWS LIFE LONG FITTING

Once a ROLL-AWAY® screen is in place it will never lose its fitting. Our patented spring loaded track enables your door to expand and contract with the house framing.

KEEPS INSECTS OUT

We use only the finest screens for our doors and windows insuring insects stay out while fresh air comes in.

Roll-Away® screen doors and windows use Phifer Fiberglass Screen. PHIFER WIRE PRODUCTS, INC
