DIG YOUR OWN

For increased savings on field-grown evergreen trees and shrubs, we permit buyers to dig their own plants. We give a discount of fifty percent off our regular prices on "dig your own" plants. The buyer must provide their own container and digging equipment. Persons digging their own plants are doing so at their own risk. Spring and Fall are the best times of the year for transplanting.

There is no guarantee on plants dug by the buyer.

RECYCLE PLASTIC POTS AND SAVE

In an effort to reduce the amount of plastic that is being disposed of in landfills, **Shaner Avenue Nursery** is reusing plastic containers designed for the container-growing of woody plants and perennials. We will take all pots, but credit will only be given for pots that Shaner Avenue Nursery uses.

RAINY DAY DISCOUNT

To encourage our customers to shop on days when weather conditions are less than favorable we are implementing a Rainy Day discount! The discount is on plant material only and may not be applied to delivery, labor or gift certificates.

(It must rain while you are at the nursery.
