

Use It or Lose It

Fall is here!

The season brings an end to those balmy summer days.

So, let us all enjoy the crisp air and colorful foliage!

Fall is also a time to utilize your dental insurance benefits.

***Every year my staff and I watch insurance companies rake in unused benefits.
Don't let the money set aside for your dental health disappear.***

You have already paid for these benefits so why not use them? Do you or a family member have unscheduled treatment pending? Did you have only one routine cleaning for the year? Then utilize the funds the insurance company owes you. Call today to reserve an appointment.

***Available appointments toward the end of the year fill up fast!
We look forward to hearing from you!!!***
