Our Administrator

Terry Ziegler is the owner and director of Mt. Taylor Children's Center and has been associated with the early childhood education field since 1978. She holds a Master of Arts Degree in Education with a special

emphasis in Early Childhood Education. Terry also holds a California State Multiple Subject Teaching Credential and is especially interested in meeting the individual needs of all children, including those with special needs.

Our Purpose

Our purpose is to provide a safe and caring environment in which each child may develop socially, emotionally, cognitively and physically at his or her own rate. We will assist each child in that growth by providing consistent loving direction, appropriate activities and encouragement. We also serve as a resource for our families. Our average ratio is one Early Childhood Educator for every eight children.

Recognitions

Mt. Taylor Children's Center is a two-time recipient of Sonoma County's Small Child Care Center of the Year Award. In addition, Terry Ziegler has received Sonoma County's Child Care Professional of the Year Award.

Days of Operation

Monday-Friday year round

Closed on selected holidays

Custom and after school programs available

Our Goal

Our goal is to provide the highest quality care, guidance and education of young children in an atmosphere of love, respect and cooperation. We believe that through being responsive to children's emotional, intellectual, physical and developmental needs, they will develop positive self-esteem, confidence and a caring attitude toward others.

We provide a working environment for our staff that is supportive, appreciative and cooperative. Continuing education, guidance and support are always available, ensuring good morale and a positive atmosphere for everyone.

Our Methods

Our programs meet the individual learning needs of young children by actively engaging the children in their learning process.

Young children learn most effectively through their senses and by doing. By playing, through our thoughtfully presented curriculum, the children are well prepared for future success in public or private school.
