

## Mono Laser

**West Point Products'** premium monochrome laser toner cartridges have the same color quality, performance, and page yield as national brand cartridges at a fraction of the cost. Our broad product line supports over 99.8% of the print volume demand in today's market.

Quality is paramount; that's why West Point Products' laser print cartridges are developed and built in the most technologically advanced, ISO 9001:2008 certified manufacturing environment in the industry. Our world-class engineering department utilizes proprietary automated equipment and ASTM testing methods to ensure superior performance from each and every cartridge produced. By utilizing high quality chemical toner and components, West Point Products' cartridges provide optimum text and graphics print quality. State-of-the-art, automated filling equipment ensures precise fill weights for each cartridge and independent testing has verified that our cartridges function fully until end-of-life while yielding the same or more pages than OEM cartridges.

It's this combination of technology and automation, high quality components, and dedication to excellence that makes West Point Products' laser cartridges the clear alternative to OEM. Backed by a 100% satisfaction guarantee, you have nothing to lose and money to gain!

### The West Point Products Advantage

- 6 global manufacturing facilities and 2 R&D facilities dedicated to laser products
- STMC-certified
- Best access to high quality cores
- IP-Cleared
- Product consistency through automation
- Digital auto filling
- Ultrasonic welding on toner hopper, same as OEM
- Pressure gauges to test seals and adhesives
- Single page test mode to maximize component wear
- Environmental chamber testing, OEM benchmark testing
