Dave's FENCE

We recently had a fence installed by your company and wanted to let you know what a wonderful job everyone did. The office staff was wonderful and kept us informed with the entire process, right down to the installation date. We understand how difficult it was to get the permit and appreciate your perseverance. The crew did an excellent job with the installation and the gentlemen that came out to finish it did as well. We are so pleased with your company and the how professional everyone was that we will recommend your company to anyone who asks. We are all enjoying the fence tremendously. Thank You for making this a great start to our new life in Florida.
