

Facial Information

A facial is a series of steps that lead to a deep cleaning of the face or other affected areas. The first step is a consultation that determines the area that is being treated and the issues that are being addressed.

- 2nd Step is cleaning of the skin with appropriate cleanser.
- 3rd Step application of the face mask, followed by effleurage on the face.
- 4th Step steam or a hot towel to open up the pores.
- 5th Step extractions of blackheads or comedones as needed per individual.
- 6th Step warm towel
- 7th Step moisturizer and massage
- 8th Step topical treatment – ex. Anti-Acne serum or Anti-Aging serum
- 9th Step SPF

You are able to wax, before a facial. This service lasts 45 minutes. You can wear makeup after a facial. A facial can be performed before a microdermabrasian treatment.
